GENERAL INFORMATION

This complete concept for roller blinds offers solutions for almost any requirement in the residential as well as the contract market. The components in the range can be used modularly offering endless configuration options to suit different window types and sizes. The compatibility throughout the range furthermore allows for easy modifying and upgrading. All components were 'designed for assembly' which ensures quick and easy assembly. The range includes several unique components for easy alignment of the system.

ADVANTAGES

- Endless configuration possibilities with components that can be used modularly
- Select from different options in fabrics, tubes, operation types, frames, bottom rails and side guidances
- Several finishes and colours available
- Easy alignment with patented adjustable bearing pin
- Suitable for use of screen fabrics
- Multiple blinds can be operated with a single motor with adjustable connecting plug
- Range includes:
 - black-out cassette
 - design cover
 - design brackets
 - motorization

THE CONCEPT

For any roller blind configuration the starting point is a combination of the requirements regarding window size and type and the functional and decorative wishes, which results in a choice for a fabric type. The Absolute roller blind concept is divided into five component groups: tubes, operation types, frames, bottom rails and side guidances. Each group offers a wide choice of options – ranging from basic to luxurious – that can be combined to make endless roller blind configurations.

SPECIFICATIONS
PARTS LIST

1. FABRICS

The specifications of the fabric are very important for defining the configuration of the roller blind. Our roller blind collection offers many different fabric qualities and varieties ranging from transparent to black-out from double roller to screen fabrics and from nature fabrics to jacquards.

**TRANSPARENT**

Our extensive collection of transparent roller blind fabric collection offers a wide range of qualities, colours and designs to suit functional as well as decorative requirements.

In order to create the perfect light a wide variety of transparencies is available. All fabrics can be used in any almost any roller blind type.

**BLACK-OUT**

Recommended for bed rooms and 100% black-out when combined with cassette and side profiles.

Ultra thin black-out fabric New York is perfect for the application in skylight blinds and cassettes. The Coulisserie range of black-out fabrics offers an extensive range of plain colours and unique designs.

**SCREEN**

Screen fabrics have perfect light, visual and heat control properties. Unique luxurious jacquard woven screen fabrics, screens with a metallic shine as well as Ultimate screen fabrics with a couture look are part of the collection. The combination of perfect functional properties and fashionable new ideas makes this technical fabric perfect for residential interior design.

For a perfect hanging conduct of screen fabrics an extra heavy bottom rail is available as well as tubes with a hold-down strip for a perfect attachment of the fabric to the tube.

**DOUBLE ROLLER BLIND**

Create the perfect light and view. The range offers stylish luxurious varieties as well as fabrics with XL and XXL stripes. With the patented adjustable bearing pin the double roller blind can easily be aligned for perfectly aligned stripes.

Absolute Roller Blind offers a wide range of system varieties for double roller blinds, ranging from regular to design, including perfectly matching bottom rails.

**NATURE FABRICS**

Delicately woven natural materials beautifully filter the light. Our Nature fabrics create a timeless luxury look and are available in many different varieties. A unique tape for finishing the edges that prevents them from fraying is available.

The luxury look is complete with the design brackets of the Absolute Roller Blind system.

**JACQUARDS**

Our wide collection of jacquard woven roller blind fabrics ranges from basic plain varieties to luxurious jacquards.

The exclusive fabrics from the Ultimate jacquard range combine stylish designs with rich colours. They perfectly combine with the Ultimate roller blind system.

2. TUBES

Absolute Roller Blind offers eight tube diameters ranging from 25-80 mm to suit all types of fabrics and blind sizes.

TUBES

Outer diameter (mm)	Inner diameter (mm)	Max. width fabric (mtr)	Max. width screen (mtr)	Max. weight fabric + bottom rail (kg)
25	23,8	1,8	/	1,5
28	26,8	2,0	/	1,8
30	26,8	2,3	/	2,0
35	26,8	2,7	2,2	2,3
42	39,5	3,0	/	4,0
50	39,5	3,5	3,0	6,0
65	*39,5 or 46,5	4,0	3,5	8,5

	ø 1,4 x 500	730	85	2,5	± 2,3

* Fabric thickness 0.3 mm

TUBULAR MOTOR 28 MM DC

Power supply	12-24V DC - 0,6A
Rated power	7 W
Torque	0,8 Nm
Speed	28 rpm
Operating temperature	5 - 60°C
Max. channels to pair	32
Weight	170 grams
Radio frequency	2.4 Ghz (bi-directional)
Suitable for home automation	Yes

Type	L1	L2	L3	Ø D1	Ø d1
ABC-05	250	11	243	40	26.5

TUBULAR MOTOR 40 MM AC

Power supply	230V AC 50Hz - 0.53A / 120V AC 60Hz - 0.85A
Rated power	121W / 102W
Torque	5 Nm
Speed	30 rpm
Operating temperature	5 - 60°C
Suitable for home automation	Yes
Degree of protection	IP 44

ELECTRONIC:	
Weight	1700 grams
Max. channels to pair	32 channels
Radio frequency	2.4 Ghz (bi-directional)
MECHANICAL:	
Weight	1400 grams
Max. number of rotations	30

4. BRACKETS/CASSETTES

Brackets and cassettes are available in different varieties, sizes and colours, ranging from basic to luxury.

Bracket 25 mm

Plastic

Metal

Tube size (mm)	Max. height (cm) / fabric thickness		
	0,3	0,5	0,7
25	500	302	218
28	456	276	200
30	425	258	186
35	339	205	148

Please note: the dimensions in the table above may exceed the capacity limits of the tube and are therefore not recommended.

Bracket 42 mm

Plastic

Metal

	A (mm)	B (mm)	C (mm)
42mm bracket standard	47	76	Ø 84
42mm bracket extra long	77	106	Ø 140

Tube size (mm)	Max. height (cm) / fabric thickness		
	0,3	0,5	0,7
25	C 440	C 250	C 180
28	C 400	C 235	C 163
30	C 370	C 215	C 148
35	C 280	C 160	C 110
42	1061	641	461
50	866	523	376
65	410	247	177

C = max. height with cover cap
Please note: the dimensions in the table may exceed the capacity limits of the tube and are therefore not recommended.

Option: connection plug

Bracket 80 mm

Metal

Option: connection plug

Tube size (mm)	Max. height (cm) / fabric thickness		
	0,3	0,5	0,7
42	C 900	C 555	C 390
50	C 786	C 470	C 320
65	1800	1114	800
80	1274	768	551

C = max. height with cover cap

The table below may exceed the capacity limits of the tube and is therefore not recommended.

Ultimate bracket

Semi-open cassette

Cassette 70 x 70 mm

Tube size (mm)	Max. height (cm) / fabric thickness		
	0,3	0,5	0,7
25	700	478	345
28	685	452	326
30	660	434	312
35	630	381	274

The table below may exceed the capacity limits of the tube and is therefore not recommended.

Tube size (mm)	Max. height (cm) / fabric thickness		
	0,3	0,5	0,7
25	638	386	279
28	595	360	260
30	564	342	246
35	478	289	208

The table below may exceed the capacity limits of the tube and is therefore not recommended.

COMPANY PROFILE

Window decorations are more than just products: they are an expression of style and individuality. This has been Coulisse's vision since its establishment in 1992, and it has helped to make the business a leading supplier of both ready-made window-decoration products for DIY retailers and components for assemblers and wholesalers of made-to-measure products. Coulisse offers its clients a comprehensive range of products, from wooden Venetian blinds to roller blinds and from vertical blinds to pleated blinds. Thanks to a constant focus on innovation, creativity and flexibility, Coulisse is even capable of starting new trends and anticipating specific client needs. Coulisse products are developed in Enter and manufactured throughout the world.
